

AVCS Pricing Schedule – ENC's by Country

All prices quoted represent the Recommended Retail Price (RRP) and are quoted in US Dollars, exclusive of VAT and other local taxes, and are valid from the date below.

ENCs within the Admiralty Vector Chart Service (AVCS) are sold in Folios and Units. Folios and Units are individually priced as listed in the AVCS Pricing Schedule csv file available from www.ukho.gov.uk/AVCS. Units are sold at a standard price based on the producer country. Large Units contain 1 or more Cells and usually provide coverage that is approximately equivalent in size to a standard paper chart. Medium Units contain a single Cell that is approximately 30% to 60% of the size of a paper chart. Small Units are up-to 30% of the size of a paper chart.

The current prices per Unit are listed below against the country that produces them.
